

Summer is here and it's time for ocean-themed crafts you can easily do at home. Grab some markers and colorful paper cupcake liners, and let's begin!

Supplies Needed

- Seahorse template printed out.
 - 8-12 paper cupcake liners
 - Glue
 - Scissors
 - Markers
1. Print out the seahorse template, choose your marker and cupcake liner colors and gather the rest of your supplies.

Color the seahorse template, and then cut it out.

- Fold your cupcake liners.
 - Open up your cupcake liner to create a flat circle, fold the circle in half to create a half circle, then fold in half once more.

- Add glue to the pointed side of your cupcake liner and begin adding the liners to the left side of your seahorse. To create depth, add another layer of liners to the top of your first layer.

- With a black marker, draw a black circle for the seahorse's eye, and add eyelashes. Add two small dots on the pointed half of the seahorse's face to create nostrils.
